NHTSA Recalls

Recall #1

NHTSA Campaign #:	17V358000
Manufacturer Campaign #:	163
Owner Notification Date:	August 04, 2017
Report Creation Date:	June 06, 2017

Defect Description:

Hyundai Motor America (Hyundai) is recalling certain 2013-2017 Santa Fe and Santa Fe Sport vehicles. In the affected vehicles, the secondary hood latch actuating cable may corrode and bind, causing the secondary hood latch to remain in the unlatched position when the hood is closed.

Defect Consequences:

If the hood is not securely closed or the primary latch is inadvertently released and the secondary latch is not engaged, the hood could unexpectedly open while driving, increasing the risk of a vehicle crash.

Corrective Action:

Hyundai will notify owners, and dealers will replace the secondary latch cable, free of charge. The recall began on August 4, 2017. Owner's may contact Hyundai customer service at 1-855-671-3059. Hyundai's

number for the recall is 163.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Recall #2

NHTSA Campaign #:	17V226000
Manufacturer Campaign #:	162
Owner Notification Date:	July 10, 2017
Report Creation Date:	April 05, 2017

Defect Description:

Hyundai Motor America (Hyundai) is recalling certain 2013-2014 Sonata and Santa Fe Sport vehicles. Machining errors during the engine manufacturing process may cause premature bearing wear within the engine.

Defect Consequences:

Bearing wear may result in the engine seizing, increasing the risk of a crash.

Corrective Action:

Hyundai will notify owners, and dealers will inspect the engine, replacing the engine short block, as necessary, free of charge. The recall began June 2017. Owners may contact Hyundai customer service at 1-800-633-5151. Hyundai's number for this recall is 162.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Recall #3

NHTSA Campaign #:	18V934000
Manufacturer Campaign #:	180
Owner Notification Date:	March 01, 2019
Report Creation Date:	January 31, 2019

Defect Description:

Hyundai Motor America (Hyundai) is recalling certain 2011-2014 Sonata and 2013-2014 Santa Fe Sport vehicles previously repaired under recall numbers 15V-568 and 17V-226. The high pressure fuel pipe that connects to the fuel pump outlet may have been damaged, misaligned, or improperly torqued during the engine replacement procedure, allowing fuel to leak from the pipe.

Defect Consequences:

A fuel leak in the presence of an ignition source can increase the risk of a fire.

Corrective Action:

Hyundai will notify owners , and dealers will inspect and replace the fuel pipe, as necessary, free of charge. The recall began March 1, 2019. Owners may contact Hyundai customer service at 1-855-371-9460. Hyundai's recall number for this

recall is 180.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Recall #4

NHTSA Campaign #:	20V520000
Manufacturer Campaign #:	194
Owner Notification Date:	December 22, 2020
Report Creation Date:	August 28, 2020

Defect Description:

Hyundai Motor America (Hyundai) is recalling certain 2013-2015 Santa Fe Sport vehicles. Brake fluid may leak inside the Anti-lock Brake System (ABS) module, possibly resulting in an electrical short.

Defect Consequences:

If the ABS module short circuits, there is an increased risk of an engine compartment fire.

Corrective Action:

Hyundai will notify owners , and dealers will inspect the ABS module and replace it if necessary, free of charge. Owners are advised to park outside as a precaution until the recall repair is complete. The recall began December 22, 2020. Note: This recall has been superseded by NHTSA Recall 21V-303 and all affected vehicles will now be repaired under 21V-303.

Owners may contact Hyundai customer service at 1-855-371-9460. Hyundai's number for this recall is 194.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Recall #5

NHTSA Campaign #:	21V303000
Manufacturer Campaign #:	205
Owner Notification Date:	August 25, 2021
Report Creation Date:	April 29, 2021

Defect Description:

Hyundai Motor America (Hyundai) is recalling certain 2013-2015 Santa Fe Sport vehicles. Brake fluid may

leak inside the Anti-lock Brake System (ABS) module, possibly resulting in an electrical short.

Defect Consequences:

An electrical short in the ABS module can increase the risk of an engine compartment fire while parked or driving.

Corrective Action:

Owners are advised to park outside and away from structures as a precaution until the recall repair is complete. Dealers will replace the ABS multi-fuse, and inspect and replace the ABS module, as necessary, free of charge. Owner notification letters were mailed on August 25, 2021. Note: This recall includes all vehicles previously recalled under NHTSA recall number 20V-520. Owners may contact Hyundai customer service at 1-855-371-9460. Hyundai's number for this recall is 205.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Date	State	Notice
------	-------	--------

<p>September 18, 2020</p>	<p>Arizona</p>	<p>Arizona is a hot and dry climate, but that does n't mean car owners are immune to car problems · Arizona experiences extremely high temperatures along with drought and wildfires · Vehicles in the state are damaged frequently by fires · Surprisingly, Arizona also has storms capable of producing hail which causes a lot of hail damage to vehicles in the state · However, due to the dry weather, you won't see many flood-damaged cars in Arizona ·</p> <p>Arizona has a population of 7,278,717, and residents drive approximately 70,281 million miles per year · The state averages about 900 fatal car crashes per year with about 980 deaths ·</p> <p>Unfortunately, road conditions in Arizona are deplorable · Only about 35% of the highways are in decent shape, causing all types of accidents , including suspension damage, flat tires , broken windshields , and other severe damage ·</p> <p>The state has only six highways , and the rest of the state is made up of decaying public roads ·</p> <p>Arizona is number one in terms of flat tires · According to Google Trends , Arizona ranks #18 on the list of states with the fewest car problems · Car insurance in Arizona is expensive because the state has a higher-than-average traffic fatality rate · Arizona ranks #5 on the list of worst states to own a car in · The state also has a lot of car problems with flat tires , transmission failure, and windshield cracks ·</p>
<p>September 13, 2018</p>	<p>Arizona</p>	

<p>July 10, 2014</p>	<p>Illinois</p>	<p>Illinois residents deal with a lot of cars that won't start. In fact, they are third on the list for that problem. Illinois ranks number 16 on Google Trend's list of the states with the most car problems. The most significant issues along with cars that won't start are dead batteries and tire repairs. In addition, Illinois residents suffer a standard number of car accidents that cause vehicle damage.</p> <p>Illinois has a population of 12,671,821 residents. These residents drive about 107,525 million miles per year. The state sees just under 1,000 (938) fatal car accidents annually, accounting for 1,009 deaths total. Roughly 4% of the state's highways are in poor condition. However, 8% of the state's bridges need repairs or replacement. Bad roads and bridges can cause accidents, flat tires, suspension damage, and broken windshields. Illinois also gets a lot of violent weather, which results in more than 50,000 hail-damaged cars per year. Illinois has four main highways totaling about 400 miles in length. A lot of the travel in Illinois is city driving, meaning congestion, increased fuel consumption, and time wasted.</p> <p>Illinois falls smack dab in the "salt belt," meaning a state with rough winters and road salt that causes rust on vehicles. Illinois has some wildfires, although not a lot, so fire-damaged cars are possible within the state. Illinois is not a state with a lot of floods. However, Illinois does have its fair share of violent weather and hail storms causing significant damage to vehicles.</p>

 **Manufacturer Information**

Hyundai

West Point, Georgia

United States

Hyundai Plant

Founded in 1967 in Seoul, South Korea, Hyundai began in 1947 as an engineering and construction company created by Chung Ju-Yung, before becoming the Hyundai Motor Company in 1967. Hyundai is best known for operating the world's largest integrated automobile manufacturing facility. The facility, located in Ulsan, South Korea, produces an annual volume of 1.6 million units.

The first automobile Hyundai assembled and produced was at that Ulsan facility; the vehicle was called the Cortina, a front-engine rear-wheel drive vehicle similar to the Ford Taunus. Created in cooperation with the Ford Motor Company, the 1968 Cortina cost \$1800, or the equivalent of \$14,015 in current value. Today, Hyundai makes a variety of cars, SUVs, and trucks. Their current lineup includes models like the Elantra, Accent, Ioniq, Kona, and Santa Cruz. Hyundai sold its highest US sales in 2016 when it sold 768,057 vehicles.

With the release of their Ioniq 5, Hyundai is working on their plan to add more electric vehicles to their current lineup. Hyundai recently announced they intend to sell 1.87 million electric vehicles by 2030,

investing a large amount of their current available capital into research and development for their EV division. The company also stated that they intend to secure 7% of the total global market share for EVs by 2030 and have all of its new models be electrified from 2025 onward.

Consumer Access Product Disclaimer

The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that contains information on certain automobiles titled in the United States. NMVTIS is intended to serve as a reliable source of title and brand history for automobiles, but it does not contain detailed information regarding a vehicle's repair history.

All states, insurance companies, and junk and salvage yards are required by federal law to regularly report information to NMVTIS. However, NMVTIS does not contain information on all motor vehicles in the United States because some states are not yet providing their vehicle data to the system. Currently, the data provided to NMVTIS by states is provided in a variety of time frames; while some states report and update NMVTIS data in "real-time" (as title transactions occur), other states send updates less frequently, such as once every 24 hours or within a period of days.

Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company (or other appropriate entity) to be a "total loss" or branded by a state titling agency. Conversely, an insurance carrier may be required to report a "total loss" even if the vehicle's titling state has not determined the vehicle to be "salvage" or "junk."

A vehicle history report is NOT a substitute for an independent vehicle inspection. Before making a decision to purchase a vehicle, consumers are strongly encouraged to also obtain an independent vehicle inspection to ensure the vehicle does not have hidden damage. The Approved NMVTIS Data Providers (look for the NMVTIS logo) can include vehicle condition data from sources other than NMVTIS.

NMVTIS data **INCLUDES** (as available by those entities required to report to the System):

- Information from participating state motor vehicle titling agencies .
- Information on automobiles , buses , trucks , motorcycles , recreational vehicles , motor homes , and truck tractors . NMVTIS may not currently include commercial vehicles if those vehicles are not included in a state's primary database for title records (in some states , those vehicles are managed by a separate state agency), although these

records may be added at a later time.

- Information on “brands ” applied to vehicles provided by participating state motor vehicle titling agencies . Brand types and definitions vary by state, but may provide useful information about the condition or prior use of the vehicle.
- Most recent odometer reading in the state’s title record.
- Information from insurance companies , and auto recyclers , including junk and salvage yards , that is required by law to be reported to the system, beginning March 31, 2009. This information will include if the vehicle was determined to be a “total loss ” by an insurance carrier.
- Information from junk and salvage yards receiving a “cash for clunker” vehicle traded-in under the Consumer Assistance to Recycle and Save Act of 2009 (CARS) Program.

Consumers are advised to visit vehiclehistory.tory.bja.ojp.gov for details on how to interpret the information in the system and understand the meaning of various labels applied to vehicles by the participating state motor vehicle titling agencies .
